NOTE TO TEAMS: CAR DISPLAY PROCEDURE

In addition to the requirements set out in Article B10.1.2a of the FIA F1 Regulations, please note the following procedures for the Car Presentation and Display at this Competition:

Between 11:00 and 12:00 on Friday, one car from each team must be positioned in their pit stop position, with the other car positioned and available for viewing inside the garage. **If only one car will carry the major aerodynamic and bodywork components and assemblies** that have not been run at a previous Competition or TCC and are intended to be run at the Competition, **this car must be the one displayed to media.**

The car outside the garage may be used for pit stop practice, but when no pit stop practice is taking place the car must return to the same position.

In the case of adverse weather conditions, 5 minutes prior to the scheduled start of the car display all teams will be notified that the procedure may be conducted in the Competitors' designated garage area. At any Competition where it is raining during this presentation, we would ask you to leave the cars in position and use awnings.

Any media wishing to take photographs must stay in the fast lane of the pit lane. For the avoidance of doubt this includes taking still images with professional cameras, mobile phones or any other device. TV Crews are allowed to shoot in the working lane of the pit lane.
